✧Theme

Community Computing

The objective of our research is to develop innovative information technologies and to show its application to manufacturing, which Japan is proud of. The methods by which information needed for production is gathered and integrated for its effective use are studied. Development of intelligent software using artificial intelligence techniques, proposals for easy and secure communication between human and software are involved. Both robustness for practical use in plants and discovery for changing the way of production in the 21st century, are investigated.

About details,

<http://www.waseda.jp/ips/english/information.html>

Collaborative research of Rococo and WASEDA

✧Theme

It's important to mention that smooth interface its necessary when users use the software. Also careful about the way of indicate the information.

We record all the conversation between the operator and customer because of that we have a huge data(big data) and we are researching how to use this big to answer our customer fast.

Because In the call center duties, it will be important how you reply to customers inquiries efficiently and appropriate. Also because there is difference of the understanding between the customer and the operator, gradually try to settle an agreement point between both parties.

WASEDA program achievement

Philippines (1)

Waseda Joining : 2012/04 ~ 2014/03

Company joining : 2014/04 ~

Brazil (1)

Waseda Joining: 2012/09 ~ 2014/09

Company joining: 2014/10 ~

China (3)

(2)Waseda Joining: 2012/09 ~ 2014/09

Company joining: 2014/10 ~

(1)Waseda Joining: 2015/09 ~ 2017/09

Company joining: 2017/09 ~

Poland (2)

Waseda Joining: 2015/ 04 ~ 2017/03

Company joining: 2017/4 ~

WASEDA program achievement

25 years old

Graduate from : Warsaw University of Technology

Join Waseda from : 2015/04

Get Master degree : 2017/03

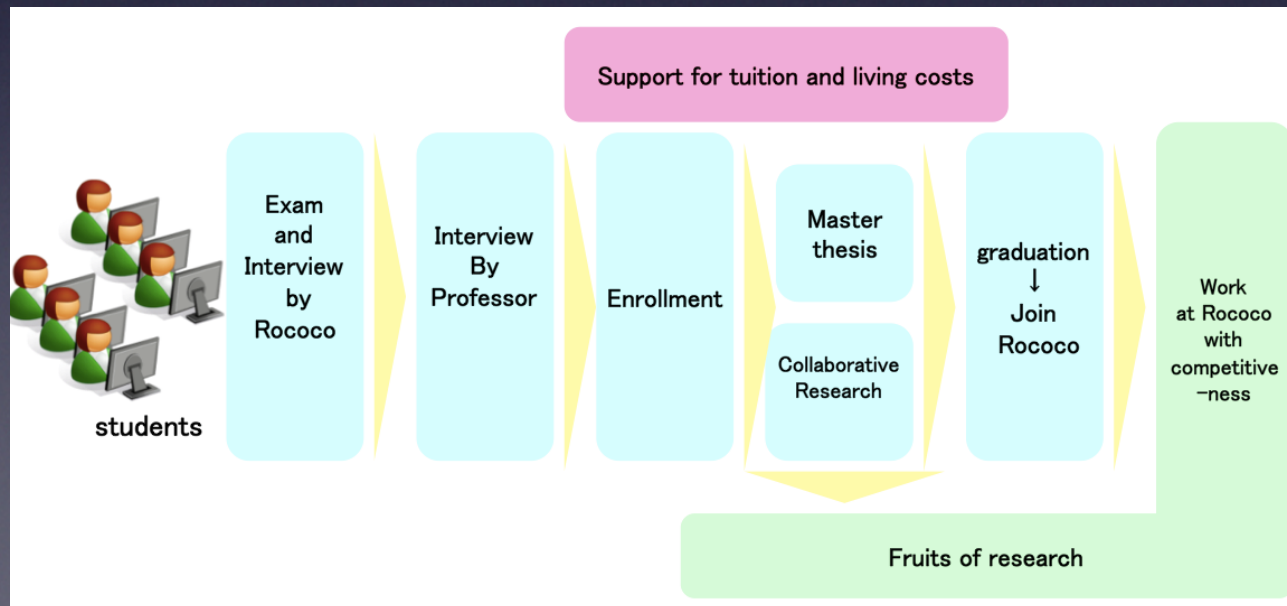

Double Doctor degree on 2017/4 ~ 2020/3

Waseda University

Warsaw University of Technology

Selection method & Process

- 1. IT Logical and English Examination
- 2. Interviews by Rococo and professors
- 3. Approval process by WASEDA University

After Graduation

- Work for Rococo Group for at least 5Years
